

Professional Summary

Dedicated Python Engineer with over 3 years of experience in designing, building, and deploying scalable applications. Proficient in Python 3.x and experienced with frameworks such as Django and Flask. Skilled in API integration, database management, and implementing best practices in version control and CI/CD. Collaborative team player with a strong understanding of Agile methodologies and a commitment to delivering high-quality software solutions.

Skills

- Python 3.x

- Django

- Flask

- FastAPI

- RESTful API

- PostgreSQL

- MongoDB

- SQL

- NoSQL

- Data Structures

- Algorithms

- AWS

- GCP

- Azure

- Docker

- Git

- Linux

Work Experience

Tech Solutions Inc.

Python Engineer

- Designed and developed RESTful APIs using Django and Flask, improving application performance by 30%.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Implemented PostgreSQL and MongoDB databases for data storage, increasing data retrieval efficiency by 25%.
- Developed unit and integration tests to ensure code quality and reliability.

Innovative Tech Co.

Software Developer

- Contributed to the development of a microservices architecture using Flask, reducing deployment time by 40%.

- Participated in Agile/Scrum ceremonies, enhancing team collaboration and project visibility.

- Utilized Docker for containerization, streamlining the development and deployment process.

- Troubleshoot and debugged applications across multiple environments, ensuring seamless operation.

Education

Bachelor of Science in Information Technology

University of Technology -

Additional Achievements

- Certified Python Developer

- Completed Agile Scrum Master Training

- Recipient of the 'Outstanding Developer' award at Tech Solutions Inc.
